

You got me eatin' the blues

You got me eatin' the blues

Welcome to Mountain Blue Orchards, international blueberry specialists!

Located in Australia's Northern NSW, Mountain Blue Orchards is one of the finest blueberry produces in the world.

The farm includes all things blueberry - Australia's leading wholesale nursery, blueberry breeding programs and seasonal picking including an internationally accredited packing facility.

Family Owned

Mountain Blue Orchards is family owned and operated. Owners Ridley and Mieke Bell take a much needed hands on approach to the running of the farm.

Ridley is considered a world leading expert and has been actively involved in the development of the Australian blueberry industry since its humble beginnings in 1975. His work has involved development of northern highbush varieties in Victoria, including many of the varieties that are grown all over the world today.

Today Ridley grows low chill or sub-tropical varieties in Northern NSW. He has been involved in breeding and selecting new blueberry varieties for this and other regions for the past eight years.
