

Pricing at Mountain blue Orchards

Pricing for 2010 at Mountain Blue Orchards

The following prices apply for blueberry plants from the 30 of June 2008 to the 30 June 2009, quoted at the farm gate at Mountain Blue Orchards Pty Ltd., (which is located on the Bruxner Highway, Alphadale, diagonally opposite the Agricultural Research Station at Wollongbar, between Lismore and Alstonville). Prices do not include the cost of delivery.

All prices quoted are Australian dollars.

PRODUCTION DESCRIPTION

We grow blueberries in a number of sizes to meet your needs. All plants are grown in pinebark / sand mixes, that have all major and trace elements included with the mix in slow release forms. No soil is used in any of our potting mixes.

Plants are grown on 1 metre high steel benches to reduce the possibility of soil borne infections.

All plants are from parent plants that have been virus indexed on entry into Australia, and to date there are no known viruses of blueberries in Australia.

Rooted Cuttings

Softwood cuttings grown for one season in open trays, where roots grow with no restriction or binding. Plant height averages 5 to 12 cms, with a root system suited to planting in either a nursery bed or containers from 100mm to 125 mm in size. (Rooted cuttings are packed in waxed "vegetable cartons" approx. 100 - 150 per carton)

100 mm Maxi pot

This is our most commonly requested size for commercial field plantings, as these plants are easy to handle and plant, and they have proved to establish very well under field conditions. They are sold as a 15 to 30 cm high plant that transplants well under commercial conditions. (100mm maxi pots shipped in wax trays, 24 pots per tray, or delivered in returnable seedling trays, (12 plants per tray).

125 mm container

These plants are for advanced field plants, ready generally as 30 to 50 cm high plants. These plants have potential to fruit within 12 months of planting. (15 pots/waxed tray). These plants are not held in stock and will potted on

175 mm container

These plants are generally used for the home garden market, as these plants are advanced and sold with flowers and fruit on a well established plant in the container. (6 plants/waxed tray). These plants are not held in stock.

Other Sizes

These may be grown to order, and
at a negotiated price.

Orders in Stock

Where plants are immediately available in stock, payment must be made in cash on delivery, unless other arrangements have been made.

Commercial Orders

For commercial orders that require special propagation and which are not immediately available from stock, such as varieties that we consider to be obsolete, and therefore not something that we would carry in any quantity, the following schedule of payments is required.

Ordering

1. On ordering

20% deposit

2. At potting

30% progress payment (The plants may be inspected at any time in the specified containers)

3. At delivery

50% final payment

Conditions

All orders are subject to crop conditions and should injury causes beyond our control occur, the order may be delayed or cancelled. Under such conditions a full refund of the deposit will be made. If seasonal conditions affect the availability of the grade that you order, we will upon your approval substitute the closest grade.

Shipping

The customer may designate the shipping method and carrier that is preferred. Freight charges are charged at our cost. Plants become the responsibility of the purchaser when they are picked up by the carrier. We cannot be responsible for loss or damage in transit.
